

KO's Lemon Cake

Ingredients

2 C flour
2 tsp baking powder
3 eggs
1 C sugar
3/4 C light olive oil or vegetable oil
1/2 C lemon juice
2 tsp grated lemon rind

Preparation

Preheat oven to 350 degrees.

Sift flour and baking powder into a large glass bowl. In a separate bowl, beat the eggs with sugar, oil, lemon juice and rind. Mix into dry ingredients to blend. Pour into greased and floured 8" round cake pan. Bake about 45 minutes or until cake springs back when lightly touched.

While the cake is baking, combine 1/4 cup lemon juice and 1/4 cup powdered sugar. Pour over cake and bake 10 more minutes.

Let cake stand 20 minutes on a cooling rack. Remove from pan and dust with more powdered sugar.
